

ADDITIONAL FEATURES

- No a priori on optimum prescription isodose
- Plan comparison tools: quick access to different treatment options
- Multiple hardware platforms: from laptop to workstation

POTENTIAL IMPACT ON CLINICAL PRACTICE AND WORKFLOW

- Shorter planning times
- Shorter treatment times
- More homogeneous plans

**INTUITIVE
THERAPEUTICS**

THE COMPANY

- Incorporated in 2010
- Over 8 years of expert R&D
- Patented solutions
- Expert management & proficient medical software developers
- Based at the heart of the Swiss MedTech hub
- Partnerships and collaborations with leading institutions: EPFL, CHUV, HEIA-FR & CSEM-NE

INTUITIVEPLAN v1.0

INVERSE PLANNING SOLUTION

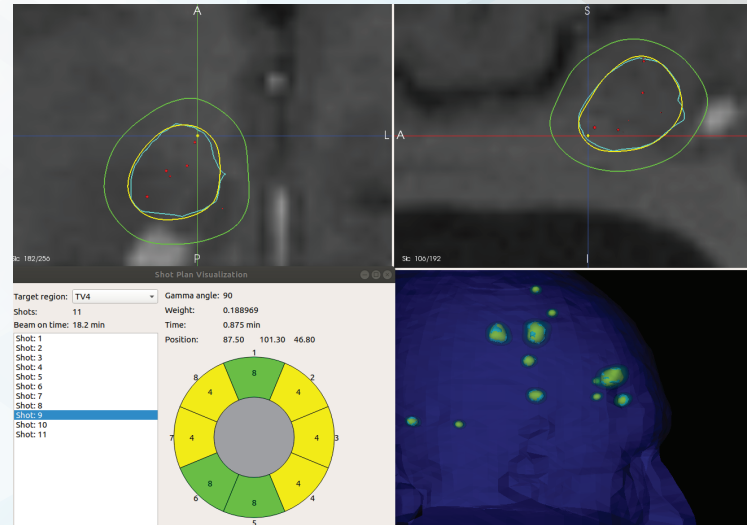

CE
0297

INTUITIVEPLAN v1.0

Fast, Reliable & Versatile Inverse Planning Solution

KEY FEATURES

- Ultra-fast computation
- Shorter planning time
- High quality dosimetric profiles
- Interactivity - "easy manipulation of isosurfaces"
- Multiple metastases: simultaneous computation of all targets
- Compatible with Leksell Gamma Knife® Perfexion™ & Icon™

SPEED & ACCURACY

- Fast planning time
- Short beam-on time
- Sophisticated composite shots
- Intuitive inverse planning

INTERACTIVITY : DIRECT MANIPULATION OF ISOSURFACES

- No need to draw OAR(s)
- Beam-on time reduction with constraint relaxation
- Dose distribution profiling within TV
- Adaptation to the users' needs

CLINICAL STUDIES

- Prof. Marc LEVIVIER, CHUV, Lausanne (CH)
- Prof. Jean REGIS, CHU La Timone, Marseille (F)
- Ian PADDICK, MSc, Queen Square, London (UK)

Primal-Dual convex optimization is the foundation of Intuitive Therapeutics' IP and technology
